### WORK EXPERIENCE

#### Developer

Self-study

2023 - Now

- Developed backend services using Node.js for various personal and freelance projects.
- Designed and implemented RESTful APIs to enable smooth communication between frontend and backend.
- Managed databases using MongoDB and MySQL, ensuring data integrity and performance.
- Collaborated with frontend developers to integrate backend functionalities.
- Deployed applications using Docker and managed code with Git.

#### Teacher

Al-Xorazmiy vorislari

3 month

- I have taught the students an interesting and understandable lesson from the foundation course.
- I taught them the basics of html css javascript.
- And I think, I helped new learners to interest to this speciality
