EXPERTISE

Node.js
Express
Typescript
Sqlite3
Prisma(ORM)
Git, Github
REST API
Algorithms

MARKUP LANG

Html,css
Handlebars
Tailwindcss

LANGUAGE

English
Uzbek

WORK EXPERIENCE

Back-End Development:
I have worked on creating and maintaining backend servers using Node.js, incorporating additional technologies as needed.

API Development:
I have experience in designing and implementing RESTful and GraphQL APIs, enabling communication between clients and services, and creating intuitive interfaces.

Postgres and SQL:
I am proficient in using Postgres and SQL databases. I have experience in designing and managing databases for personal projects and organizations.

Programming Technologies:
I am skilled in JavaScript, Express.js, npm, and various Node.js libraries. I am also in the process of learning TypeScript.

Best Coding Practices:
I am committed to maintaining clean and efficient code, utilizing Git and GitHub for version control, code collaboration, and continuous integration.

Serverless Computing:
I have practical experience with serverless architecture using AWS Lambda and the Serverless Framework

EDUCATION

2022 - Now

UrSU

Bachelor Of Student
2022 Sep - Now
I am a second-year student at Urgench State University.

2022-2023

Data Union

Backend Developer
2022 Oct - 2023 May 8 Month
